   A. Resolution 22-2017 – Recognizing Caleb Suttle’s participation in the American Public Transportation Association (APTA) 2017 International Roadeo Competition Event
Jim Thoelke, Safety & Training Supervisor presented an overview of Caleb Suttle’s journey to the International Bus Roadeo. Caleb Suttle, BFT Coach Operator, placed 9th overall in the APTA’s International Bus & Maintenance Roadeo 35-Foot category in Reno, Nevada. Since he began competing competitively in 2016 in the Local & State “roadeos,” he has placed 2nd and 3rd place, respectively, earning his first trip to the APTA International Bus Roadeo. Then, in May of this year, he placed 9th overall against some of the best Operators in the country at the APTA International Bus Roadeo. At this event, Caleb was also one of five (5) finalists out of the 40 Operators who competed in the Customer Service Challenge, and faired very well among the other 4 finalists.

Jim Thoelke stated Caleb Suttle placed second in the first qualifying competition for 2017, the BFT Bus Roadeo, and will be sent to compete in August at the Washington State Public Transportation in pursuit of a return visit to the 2018 APTA International Bus Roadeo. The Board recognized that Caleb was unable to attend for recognition, and honored him with a round of applause.

Jim Thoelke, Safety & Training Supervisor presented a staff recommendation to recognize the Ben Franklin Transit Coach Operators and Dial-A-Ride Drivers who received the National Safety Council’s Safe Driver Award for 2016-2017. BFT’s Coach Operators and Dial-A-Ride Drivers are monitored throughout the year to ensure they are following established agency best practices and procedures in the safe operation of company vehicles. Not only are they expected to apply the National Safety Council Defensive Driving practices, Ben Franklin Transit Rules, Policies & Procedures, and the Washington State Transit Insurance Pool (WSTIP) best practices in vehicle accident prevention, but must also operate the vehicle in such a manner as to prevent “on-board” passenger accidents from occurring.

At the end of this past qualifying period, May 4, 2016 through May 4, 2017, Ben Franklin Transit had a combined total of 144 Coach Operators and Dial-A-Ride Drivers who successfully made it through the year without a single “preventable” type passenger or vehicle accident. The agency has coach operators and Dial-A-Ride drivers who have earned their very first-year award all the way up to one who had earned his 31st year of safe driving award.

At the annual BFT 35th Anniversary & Employee Recognition Breakfast, held on May 10, 2017, staff honored and recognized all those who achieved this very challenging and difficult accomplishment.

VICE-CHAIRMAN KOCH acknowledged what a feat it is to carry such an impeccable driving record, especially when you factor in inclement weather. VICE-CHAIRMAN KOCH called for a motion to Resolution 22-2017 and Resolution 23-2017.

Ms. Boyce stated that BFT employees submitted nominations for BFT Employees of the Year, stating what the person(s), have done to make Ben Franklin Transit a better transit system and gave explanation of how their activities and efforts have brought distinction and honor to Ben Franklin Transit.

She continued, David Peterson is a 19-year Coach Operator and 18-year recipient of the National Security Council’s National Safe Driver Award. As a Coach Operator, David holds himself to the highest of standards in his customer service, dependability, quality of work, and cooperation. David is a shining example of excellence. Proof can be found in 10 of his 10 driver evaluations resulting in “Exceeds Expectations.” David Peterson is an exceptional employee; he is a professional who shows up for work every day and treats his customers with respect and kindness. Also, in 2016 David received a positive CCR, where a BFT passenger was very grateful that Dave had recognized him and stopped for him even though he wasn’t at a posted stop. Passenger knew that Dave didn’t have to stop but was grateful that he did. Dave Peterson is an honorable, honest man with integrity and he brings distinction to BFT every day, by his attitude and his actions toward his job and his customers. Congratulations and thank you, David, for all you do!

His dedication to his team, and his riders is exhibited daily as he works to schedule passengers, resolve customer concerns and serve as closing dispatcher. As such, Julian is often in a position where he must handle situations by himself. He has shown his devotion through his willingness to step in when called upon, albeit Spanish translation, backup Dial-A-Ride scheduler, or offering suggestions and feedback. The effort Julian has made over this past year has brought distinction and honor to BFT. Congratulations and thank you, Julian, for all that you do.

In this role, Tim, a 22-year employee and Steve, an 11-year employee assist drivers as well as our 5,278 active DAR passengers. They are highly regarded by their peers, and work well with each other. 9. Action Items

A. Resolution 29-2017 – Approving a Revision to the 2017 Capital Budget

Kevin Hebdon, Administrative Services Manager, stated the Capital Budget increases are due to grant funding that is available and final planning and programming of those grant funds that have been finalized for fiscal year 2017. He proceeded to present the BFT staff recommendation that the Board approve increases to the 2017 Capital Budget in the amount of $1,909,551; from $9,962,472 to $11,872,022 as summarized in Exhibit B. Staff also recommends the Board delegate authority to the General Manager to revise the FY 2017 Federal and State grants in an amount not to exceed BFT’s apportionment sufficient to claim all available current and prior year funds available to BFT.

ACTION: RICHARD BLOOM made and TERRY CHRISTENSEN seconded a motion to approve Resolution 29-2017 – Approving a Revision to the 2017 Capital Budget MOTION CARRIED UNANIMOUSLY.

B. Resolution 30-2017 – Authorizing the General Manager to enter into a contract with Gillig LLC to purchase six (6) fixed route buses utilizing Washington State Contract #09214

Dr. John Myers, Chief Operations Manager stated that Ben Franklin Transit (BFT) has the need to replace five (5) 2005 buses and one (1) 2006 bus that have on average over 580,000 miles each. These coaches have exceeded BFT’s replacement cycle of fourteen years or 550,000 miles. Based on fixed-route fleet needs, staff has determined three of the buses will be 30’ and three will be 35’ in length.
BFT has the opportunity to purchase the six fixed-route buses from Gillig LLC through Washington State Contract #09214. The Washington State contract enables smaller and medium sized agencies to take advantage of the State’s purchasing power. In doing so, BFT saves staff time and costs associated with preparing and administering vehicle procurements.

Staff recommends the Board Authorize the General Manager to enter into a contract with Gillig LLC to purchase three (3) 30’ and three (3) 35’ buses utilizing the Washington State Contract #09214.

VICE-CHAIRMAN KOCH opened for questions, to which there were none. He then called for a motion to Resolution 30-2017.

C. Resolution 31-2017 – Authorizing the General Manager to Release Request for Proposals (RFP) for an Automated Fluid Management System

Jerry Otto, Maintenance Fleet Manager & Special Projects, stated that BFT intends to purchase a turn-key automated fluid management system to replace the Agency’s current outdated and fragmented fluid management system. The new system will control the dispensing and recording of fuel and consumables at BFT’s onsite fueling station as well as fluids dispensed in the maintenance service bays. Additionally, the new system will be expandable to meet future growth.

The new system will be designed to meet the following objectives:

1) Improve the efficiency and control of fluid dispensing.
2) Improve fuel inventory management by integrating with the existing monitoring system.
3) Integrate with Fleet-Net System software.
4) Provide standard and custom fluid management reports.
5) Automatically capture the vehicle number, odometer, fluid product and quantity dispensed.
6) Capture engine metrics including, but not limited to: engine hours, idle hours, average miles per hour (MPH) and ECM codes.
7) Automatically capture the date, time, location and employee dispensing the fluid.
8) Provide employee access to the island control terminal that will include proximity card and manual entry.
9) Meet all Federal, State, and Local regulatory requirements for safe operation in conjunction with all fuels and petroleum products.

Jerry Otto, then presented to the Board an in-depth look at the current practice: a clipboard and pencil, which are then manually input, daily, into our inventory management system.

The Board acknowledged the archaic ways, and essential need for improvement. Brief discussion was held.
VICE-CHAIRMAN KOCH opened for questions, to which there were none. He then called for a motion to Resolution 31-2017.

ACTION: RICHARD BLOOM made and LISA STADE seconded a motion to approve Resolution 31-2017 – Authorizing the General Manager to Release Request for Proposals (RFP) for an Automated Fluid Management System.
