CAN Recommendation 2024-05

Title: Audio and Announcements on Buses

Required Routing: To BFT Management – YES
To BFT Board - OPTIONAL

Presented to BFT Management May 29, 2024, Revised June 3, 2024

- A. Background: From the Citizen Advisory Network (CAN) Standing Rules as approved by the BFT Board of Directors in August 2023:

MISSION STATEMENT

It is the mission of the Ben Franklin Transit (BFT) Citizens Advisory Network to advocate for public transit, to serve as a resource to BFT Management and to the BFT Board of Directors in accomplishing the BFT Mission and Goals.

- B. Two CAN Members, Vanessa Pruitt and Frank Cuta, met with BFT to evaluate the Audio Assistance and Signage available on Coaches / Dial-A-Ride / Transit Centers.

The following are the finding of that meeting as reported back in the CAN Regular Monthly Meeting on May 20, 2024:

1. The Audio Levels of the exterior audio announcements on some of the Coaches were too low to be understood from more than a few yards away.

CAN Recommendation: If not currently being done it is recommended that BFT Staff use an accurate Decibel Meter to determine and set the audio levels.

From several Transit sources it appears that it is recommended that the sound level of announcements not be lower than 70 dB, and at least 10 dB higher than the surrounding sound level.

BFT ACTION ITEM: Report to CAN June 17 of how this issue is currently handled and future actions if required.

2. It was noted that the Audio Announcement at a Transit Station (and stops) activates when the Coach door is opened but does not repeat even though the door remains open or closed while the Coach is at the Transit Center.

It would be advantageous for riders depending on Audio Announcement if the announcement continued to announce while the Coach is stopped in order to assist Riders depending on the Audio Announcement to assist them in finding the correct Coach.

BFT ACTION ITEM: Report to CAN June 17 of how this issue is currently handled and future actions if required.

3. It has been noted that the Audio Announcement with details regarding stops that a particular Coach makes is not activated until about a minute after the Coach leaves a Transit Station.

It would be beneficial if the Audio Announcement with details regarding stops were made while the Coach is at the Transit Station.

BFT ACTION ITEM: Report to CAN June 17 of how this issue is currently handled and future actions if required.

END OF CAN RECOMMENDATION 2024-05

Subject: Urgent Call for Accountability and Representation

Dear Citizens Advisory Network Members,

I am deeply troubled by recent developments at our agency over the past year. The decisions to replace essential dial-a-ride services with a taxi service, consider discontinuing free youth riding, restrict public comment, propose fare increases, implement service reductions, face impending layoffs, and encounter challenges with the sales tax issue threaten to significantly impact our services. These actions raise serious concerns about the direction and decision-making within our agency.

I have cc'd you on a message to the board that provides insights into the current challenges we are facing. The reality is that the previous general manager's actions led to a significant loss of staff. Unfortunately, the current interim GM is continuing down a similar path, making irrational decisions that have resulted in unpaid bills, vendors unwilling to work with us, and crucial reports not being submitted promptly, jeopardizing our funding and operations. It appears our agency is in a state of disarray.

We are at a crucial juncture where choosing the right CEO is paramount. The current leadership lacks the essential comprehension and expertise needed to proficiently manage our taxpayer funds and effectively serve the community. Instead, we are witnessing the agency falter due to poor leadership and mismanagement. The lack of accountability within the board is equally concerning and unacceptable.

Here's how you can contribute:

1. Advocate for inclusion in the evaluation process of a new CEO.
2. Evaluate the validity of my concerns and their impact on our agency.
3. Request from HR a detailed staff headcount and hire dates.
4. Investigate the number of outstanding bills and the implications.
5. Demand a monthly list of public comments.
6. Request a comprehensive budget analysis with year by year comparison dating back to 2021.

Looking ahead, I believe it's crucial to enhance accountability within our agency. I propose that a member of the Citizens Advisory Network (CAN) be appointed to the board. This step will ensure that your voices are heard and that we have better oversight and accountability for the board, GM, and CEO, thereby preventing such situations from arising again in the future.

As you conduct your evaluation, you will discover that our concerns are justified. Ben Franklin Transit must prioritize the community's needs and restore efficient service. It is crucial that prompt action is taken to appoint capable leadership and resolve the current situation.

Thank you for your attention to these urgent matters. Together, we can ensure our agency meets its responsibilities to the community.
